工具车系列

Trolley Series

Professional Multi-integrated mobile tool trolleys and tool boxes.

1

一般手工具系列

General Hand Tools Series

Mechanical hand tools for professional users include torque wrenches, pliers, hammers, pullers, and etc.

2

扳手及螺丝批系列

Wrench & Screwdriver Series

Professional wrenches and screwdrivers for tighten and loosen works.

3

棘轮扳手系列

Ratchet Wrench Series

Flare Nut Ratchet Wrenches, MIT Reversible Ratchet Wrenches, Twist Combination Ratchet Wrenches, and etc.

4

旋具头及套筒系列

Bit & Socket Series

A wide range of hand sockets, socket bits, and accessories for auto maintenance in 1/4", 3/8", 1/2", 3/4", and 1".

5

气动系列

Impact Socket & Driver Series

Professional impact tools for auto repairs are available in 3/8", 1/2", 3/4", 1", 1-1/2" and 2-1/2"

6

工具车系列 TROLLEY series

PARD products speak for themselves.

PARD products turn heads, attract the knowledgeable eye and speak volumes of the brand's commitment to high standards of manufacturing. In fact, we shouldn't really need to be telling you this. You have probably already been charmed by one of PARD's products. Need we say any more?

PARD WORKER

Multi-Integrated Mobile Tool Trolley

Its strong modular construction design, with protective strips on each corner, and a multitude of add-on fixtures, is a multi-integrated work station.

The innovative drawer handle design gives the PARD WORKER tool trolley a signature design that sets it apart. Built-in storage compartments in the handles themselves provide places to put everyday items. The dual-material structure is strong, functional and stylish.

- Application**
1. Dual Bottle Rack
 2. Side Handle & Paper Roll Rack
 3. Document Clipboard
 4. Release Drawer Button

PUSH

1. Hook and Pegboard Plate.
2. Revolving Computer Tray: 360° revolving characteristics. Easy to be adjusted to the preferred angle. Ideal for personal computers.
3. Removable Work-Top: Both sides of the work-top can be used. One side is an anti-sliding work board, and the other is a plastic work-top and with shallow arrangement partitions for small accessories and tools.
4. Removable Side Table

1. Protective Strips: Prevent trolleys from getting damaged or scratched. These strips are also designed to act as cable organizers.
2. Side Door, Storage, Cast Wheels: Strong Dual Brakes will keep trolleys from moving around and will reduce unwanted shaking.
3. Drawer Dividers: Easier to organize and segment tools and small accessories, bits, screws and other hardware. These dividers keep your storage space clean, organized and help you find the right tools in an instant.
4. Corner Protection: Protects workers from accidental drawer injuries.

Features of the Products

The side handle and paper roll rack are conveniently blended into a single design. The tilted document clip design makes it easy to attach documents, work orders, manual, engineering drawings and technical data sheets. This clipboard can be placed anywhere on the back pegboard. The dual bottle rack design can be adjusted in height as and when needed. The revolving storage rack provides a convenient area to place a laptop computer or any other useful device. The Release Drawer Button allows stuck drawers back to normal.

Hard work-top board can be turned over so that the user can choose to use the soft foam side for working preferences. The duo-surface table top also doubles as a removable work tray. Heavy-duty cast wheels make the PARD WORKER entirely mobile. Protective strips on each corner are designed in a way that allows user to pinch cleaning cloths and sponges into the system. These fixtures also allow for running cables through them which in turn, keeps them neatly tied away to avoid tripping over.
